Chapter Leader of the Year

Congratulations to SCTE's 2021 Roger Paul Chapter Leader of the Year, Kim Lambert from the Piedmont and Crystal Coast Chapters! Kim has been an enthusiastic chapter volunteer for more than a decade, helping to plan events, communicate with members, and promote the benefits of SCTE membership. It's no coincidence that the Piedmont Chapter has won seven consecutive Chapter of the Year awards since Kim joined the board, and Crystal Coast has earned three. She also volunteers on the national Awards & Compliance Matrix Subcommittee. Congratulations and thank you, Kim!

Nominations for the 2022 Roger Paul Chapter Leader of the Year are being accepted through Jan. 31 at scte.org. The winner will be recognized at the Chapter Leadership Conference, March 29-30, and receives a full conference registration and three nights' hotel accommodations at Cable-Tec Expo 2023 in Denver.

There's a Training for That!

Due to the pandemic, most of the training by SCTE's local chapters is conducted via webinar. That means SCTE members can access hundreds of hours of training content at scte.org for free as a benefit of membership.

TOPICS INCLUDE:

- DOCSIS
- Remote PHY
- Troubleshooting
- Fiber
- Safety
- Power
- PNM
- And more!

These trainings are a great supplement to SCTE courses and preparation for SCTE certification exams.
